Google ★★★★★ Herring Sanitation - www.herringseptic.com

Love this company! Karen and Javier are so caring and considerate of my business needs. They save me money. Suggest things I would never have thought of and keep me computing. So glad that I found them. We have been in business since 1972 and never had such success with an IT Company. Herring Sanitation has been using them for a few years now. Highly recommend them and they travel to you.

Google ★★★★★ Lehigh Landscaping - www.lehighlandscaping.com

Javier from JK Techs has been very responsive to our needs and always quick to help in times of emergency. He is knowledgeable and affordable. Making the switch to JK Techs has been a great decision on our part. I recommend JK Techs to anyone for their personal or business needs.
